Adult Social Care

# Strategic Review

This leaflet explains how we're  
working to make adult social care  
better in Sheffield.

Living <sup>the</sup> life you want to live.

## What are we going to do?

We want to improve our adult social care in Sheffield.

We want to make sure Sheffield is a city for all ages, where everyone can get the right support to help them live the kind of life they want to live.

To start this work, we want to hear from as many people as possible. We want local people to help us design how things will look in the future.

Together, we'll improve how we work and the support we buy from other care and support providers.

We want to be bold and ambitious. This could mean changes and doing things differently, or doing very different things. But we'll also take into account what people say works well now, and what they value.

## Why do we need you?

We don't have all the answers. We need your wisdom, experience, and knowledge to help design our services in future.

We want you to challenge our thinking, help look for solutions and really make adult social care in Sheffield the best it can be.

## What happens next?

First, we need to check with you what you told us in the past and make sure we haven't missed anything.

We've used what you've told us before to design some **Principles** and **Commitments** that we want to achieve.

We will share these with as many people as possible and ask for your comments and suggestions.

So please look out for the consultation at the end of September 2020 and let us know what you think.

You can find out more and complete the survey form on our Citizen Space website:

<https://sheffield.citizenspace.com/communities-business-strategy/adult-social-care-strategy-2020>

During the consultation we'll also ask people if they want to help design how we deliver the Principles and Commitments.

We want to make sure after this review adult social care helps you with

Living the life you want to live.

**So please get involved!**
