Clinical Commissioning Group

Sheffield
City Council

This leaflet tells you about our work to make **adult social care** better.

There is another leaflet about this called the **Strategic Review**.

Contact us if you want a copy of this leaflet.

**BIG
words**

You may not have heard some of the words in this leaflet before, like **Principles**. At the end of the leaflet is a list of some of these words with what the words mean.

What we are doing

We want to make
adult social care better.

Social care helps people to have a good life in their community.

We want Sheffield to be a good place for everyone to live. Younger people and older people.

That means everyone gets the help they need.

So everyone can say they are
living the life they want to live.

What will change?

We want to make **bold** changes.

We could change how some support works.

And we could change what support we buy to help people.

To get this right we need your help.

You know about local support.

What works, and what does not work.

Please help us to get this right.

Tell us what you think.

Tell us what support works for you.
The things you want to keep.

Tell us what needs to change.

Tell us what new support you need.

And then help us to change things.

Our plan

We are making a list of things people have told us before about local support.

The list of things people told us about how we should work together is called our **Principles**.

The list of things we want to make sure we do to make things better is called our **Commitments**.

We will share these with people at the end of September.

You can tell us what you think on our website.

<https://sheffield.citizenspace.com/communities-business-strategy/adult-social-care-strategy-2020>

You can also tell us if you want to help us make things better.

BIG words

What words mean

Here are some of the words used in this leaflet, and what they mean.

adult social care helps people to have a good life in their community.

Strategic Review. This is when we look carefully at what we do. This makes sure we know what to do to make things better.

Principles. The things that we think are really important when we work to make things better. Keeping to the Principles makes sure we work well together.

Commitments. We will write a list of all the things we want to do to make things better. We will share this list with you so you can see what will change.
