

# *Awareness Training*

## *NHS Screening Programmes*

*open to all staff, family members and carers*  
*in all care service areas*

Working in partnership to increase the uptake of NHS Screening Programmes for people with a learning disability, autistic people, and people with a severe mental illness

This 90-minute session aims to increase knowledge and understanding of the 3 NHS Cancer Screening Programmes (Bowel, Breast and Cervical) and Abdominal Aortic Aneurysm (AAA) and Diabetic Eye Screening and the importance of them. By the end of the session, you will be able to identify opportunities where you can support reducing inequalities in uptake of screening programmes

We will need pre and post-course surveys please, before we can circulate the flyers.
